Passionate about our customers

Our mission is to offer a safe, quality controlled, cost effective and dedicated engineering service tailored to specific client requirements.

We believe that customer needs are paramount and constantly strive to form strong, yet flexible relationships with our clients that are built up around the business demands inherent to that particular industry.

Our specialist services can be individually specified, ranging from the provision of labour only and free issue material through to complete project management.

Our services cover the following industries:

Hallamshire Engineering is experienced and has an impressive track record in delivering complex solutions. These key drivers have been fundamental for the growth of our reputation and client base.
